DUNLAP INSTITUTE
for ASTRONOMY & ASTROPHYSICS

Welcome to dotAstronomy

Renée Hložek, Katie Breivik, Bryan Gaensler, Kartheik Iyer, Siqi Liu, Meaghan MacSween, Tina Peters, Mubdi Rahman, Mike Reid, Ingrid Small, Nathaniel Starkman, Alice Chow, Joanna Baylon, Zoe Jaremus

Land Acknowledgement

We wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and most recently, the Mississaugas of the Credit River. Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.

Dunlap Institute for Astronomy and Astrophysics

AUGUST 21 2017

Thousands view a partial eclipse of the Sun at the Dunlap's eclipse viewing event at the Canadian National Exhibition.

SEPTEMBER 7 2017

CHIME, the Canadian Hydrogen Intensity Mapping Experiment, begins its mission to create the largest three-dimensional map of the Universe after years of development and construction at the Dominion Radio Astrophysical Observatory in B.C. At the Dunlap, Prof. Keith Vanderlinde leads the team of students and postdocs working on CHIME.

Our Mandate and Pillars

Dunlap Institute for Astronomy & Astrophysics
UNIVERSITY OF TORONTO

- Mandate: *To position the University of Toronto as an international leader in the field of astronomy and astrophysics, thereby ensuring a continuing legacy for the Dunlap name*
  - Develop and apply innovative instrumentation and technology to advance our understanding of the Universe
  - Prepare the leaders of the future in astronomical instrumentation and data science
  - Bring the excitement of the Universe to young people, the public, and underrepresented groups

Dunlap Institute Code of Conduct

All members of our community are expected to follow these guidelines:

- Behave in a professional manner as outlined in the University's Guideline on Civil Conduct. This includes:
  - Treating others with dignity, courtesy, respect, politeness and consideration.
  - Being respectful of others' right to express their views, even if you disagree.
  - Managing conflict with others in a respectful way rather than in a confrontational way.
  - Making decisions concerning the use of alcohol that are responsible, legal and in compliance with any obligations arising from the individual's relationship with the University

The Dunlap will not condone unprofessional behaviour that violates any of the University's Policies, such as:

- Profanity, abuse, shouting, aggression, violent language, or inappropriate physical contact directed at an individual or individuals.
- Humiliating, degrading, demeaning, belittling, insulting, frightening, harassing or intimidating another person.
- Making sexist, racist, or exclusionary comments or jokes.
- Using sexual or sexist language or imagery.
- Use of alcohol that is irresponsible, illegal, or breaches other obligations that the individual has to the University.

- All communication, whether it be in person or electronically, should be kept appropriate and respectful for a professional audience including people of many different backgrounds and identities.

- Be kind to others. Do not insult or put down peers, colleagues or attendees.

.Astronomy 11: Toronto 2019

.Astronomy 11 : Schedule

Chestnut Residence & Conference Centre, 89 Chestnut St, Toronto, ON M

	Day 0 - Tues 22	Day 1 - Wed 23	Day 2 - Hack Day - Thu 24
9:00 AM	*Registration, Coffee and Snacks*	*Coffee and Snacks*	**Pitch Hack Ideas!**
9:30 AM	Welcome and introductions	**Brittany Kamai (invited): Designing the Future of Gravitational Wave Detectors**	
10:00 AM	**Suresh Sivanandam (invited): Data-Driven Approaches for Astronomical Adaptive Optics**	**Nicole Cabrera Salazar (invited): The Incredible Wholeness of Being**	Hacking
10:30 AM	*Coffee break*	*Coffee break*	*Coffee break*
11:00 AM	**Rob Simpson: How to get the most from dotAstronomy**	**Cassandra Mangroo (invited): BenchSci**	Hacking
	Kartheik Iyer: What can we learn from the SEDs of galaxies?		
11:30 AM	**Alyssa Goodman: Enhancing our appreciation for high-d data**	**Katharina Lutz: Write a paper in one jupyter notebook**	
	Becky Smethurst: Engaging astronomers in the era of clickbait	**Erik Tollerud: The Astropy community**	
12:00 PM			*Lunch while hacking*

Wednesday reception: Faculty club

Logistics

- Breakout rooms: St. Patrick North and St. Patrick South
- Please be engaged (and if you have to drop out of a session, do so)
- Zoom/slack moderators in every talk/unconference session
- Please use slack or come to me directly!
- Challenge yourself (see Rob's talk later)
- Drive for talks: https://urlzs.com/yKVS4
- HAVE FUN, You are very welcome!
